Security Asia 2023

Security & Safety Sector of Pakistan

Pakistan is a major importer of security & safety products, crossing the import of US Dollar 1 billion in the previous year. The demand for security & safety products is further growing. The Government of Pakistan has planned to invest more than US Dollar 610 million during the year 2012-13 on this sector.

The Government of Pakistan along with private entrepreneurs has an aim to bring in new technologies and latest security & safety equipments in Pakistan to ensure foolproof security and safety in the Country. The import of these products will thus continue to increase in future.

"ASIA"

The manufacturing hub of Security Equipments

Asia is the manufacturing hub for the safety & security industry, producing around 80% of the world's security products. At Security Asia, 90% of key Asian manufacturers from China, Japan, Korea, Malaysia, Singapore and Taiwan will display their new product innovations which would be interesting for companies looking for an OEM / ODM partnership.

Security Asia - serving the international security markets. Our commitment is to provide end users, installers, systems integrators, specifiers and industry professionals with a platform to:

- Gain latest market information
- Create new businesses, network with key people in the industry
- See latest innovations in technology, receive educational content
- Raise awareness about exhibiting companies' products and services.

Security Asia will provide the perfect platform for exhibitors to introduce their latest developments for both commercial and domestic use to decision-makers within the industry.

Security Asia will set the agenda for the future of the Global Security Industry in Pakistan. It will bring together professionals from a variety of industries including financial services, retail, realty and hospitality, all searching for the latest products and services in the security market. Whether it's a comprehensive end-to-end solution or a customized technology that's being sought, Security Asia will provide the answer. Security Asia will provide a definitive route to market for the buyers, specifiers and practitioners. A targeted promotional campaign will be implemented to attract quality visitors with purchasing authority via association partnerships, media support, email campaigns, direct mail and dedicated website.

Security Asia will be the regional leading security trade fair offering a complete security supply chain that ranges from components to total solutions. It is poised to be acknowledged by industry players as the major security business platform connecting key manufacturers and buyers.

Why Security Asia

Security Asia would be an ideal platform to introduce new developments, products and technologies to global security industry buyers. This event is specially designed to attract:

- Buyers and procurement managers from the major security brands
- Small system integrators and specifiers.
- Consultants of multinational buying groups
- Key decision makers looking to source new products and solutions

Complimentary promotion of your company and products through Security Asia's extensive marketing program including:

- Constant press conferences and press releases in industry magazines, journals and newspapers
- Print and electronic media advertising world wide
- Promotion in Security Asia and co-located events' websites
- Telemarketing in major cities of Asia.
- Direct and constant mailing to major potential buyers
